The Technical Leadership Residency

Help your strongest technical leaders lead high-stakes work without constant executive intervention.

1:1

Coaching, not training. A senior practitioner beside your leader.

1 outcome

A real business result with measurable indicators.

90 days

One cycle per outcome. Renew it, sharpen it, or stop.

I coach your leader one-on-one while they lead the real work already on their plate.

WHAT IT ASKS OF YOU

You spend an hour at the start and an hour at the end. In between, the coaching load comes off your calendar and the initiative keeps moving.

IF YOU'D RATHER STAY OUT OF IT

Your leader sets the outcome with me. You join the readout at 90 days.

AND TO BE CLEAR

I'm not there to replace you as their manager, just to take one initiative's coaching load off your plate.

Built for CTOs, VPs of Engineering, and executives developing high-potential technical leaders.

FOUNDING RATE · 2026

$1,000 per leader / month

Build leaders who can carry the next hard thing, and come out proud, not burned out.

OUTCOMES

What a cycle can target

- An AI or technology initiative, taken to something the organization can use
- A stalled cross-functional project, moving toward launch again
- Technical direction and decisions people actually follow
- Clarity on where and how they want to make their impact
- Stakeholder alignment around a complex initiative
- The shift from doing the technical work to leading others through it
- Bigger work without burnout, so evenings and weekends stop being the release valve

STRUCTURE

The 90 day cycle

WEEK 1

Set the target

- A 90 minute planning session
- Optional 30 minutes with their manager
- A written plan the leader owns

WEEKS 2 – 11

Lead the work

- A 60 minute session every other week
- Close reviews of real work when it matters
- Reachable in between

WEEK 12

Review, reset

- Progress against the indicators
- The plan updated with where it landed
- The next outcome, or this one sharpened

YOUR ROLE

Less coaching load on your calendar. More ownership in theirs.

IF YOU WANT A SAY IN THE OUTCOME

Thirty minutes in week 1 to set it with your leader, then the readout at 90 days.

IF YOU'D RATHER STAY OUT OF IT

Your leader sets the outcome with me. You join them for the readout at 90 days.

THE FINE PRINT

ADD-ON · THREE OR MORE LEADERS

Organizational Leadership Insights Review

With three or more leaders, an end-of-cycle read across the group:

- Anonymized themes
- Organizational strengths
- Recurring barriers
- Recommendations

ONE RULE

Confidential by design

Coaching conversations stay confidential. You get progress against the outcome, never what was said in a session. That's why a leader will tell me the truth about what's actually hard.

INVESTMENT

STANDARD

$1,200

per leader / month

Two cycles, six months · 10% off **$1,080**

FOUNDING CLIENT RATE · 2026

$1,000

per leader / month

Two cycles, six months · 10% off **$900**

Founding pricing is available for engagements starting in 2026, while I validate the residency with a small number of early client organizations.

Best fit: strong technical leaders taking on more important initiatives, leading across teams without formal authority, or working in real ambiguity.
